AG 4040N RR is a new high yielding early group IV variety from Advanced Genetics with the RoundUp Ready gene from Monsanto. AG 4040N RR is a moderately tall variety with good stress tolerance and good standability. It may be planted in wide or narrow row spacing, on any soil type with an expectation of very good performance. AG 4040N RR has a fairly good Iron Chlorosis rating and a very uniform, attractive field appearance. It offers protection from Race 3 Soybean Cyst Nematode and good field tolerance to Phytophthora Root Rot.
