

Advanced Genetics Soybean Varieties

AG 4733S R2Y

Maturity:	4.7
Height:	Medium
Plant Type:	Med. Bush
Flower:	Purple
Pubescence:	Light Tawny
Pod Color:	Tan
Hilum Color:	Black
Seed Size:	3000/lb.
Recommended Row Width:	Narrow or Wide
Phytophthora Race Resistance:	Rps 1c
Cyst Nematode Resistance:	none

AG 4733S R2Y is a new high yielding late group IV variety from Advanced Genetics with the RoundUp Ready 2 Yield gene combined with the STS gene. This variety is in a class by itself, it may be planted early or late in narrow or wide rows on any soil type. A medium height variety, AG 4733S R2Y stands very well and pods up off the ground (even in late planting). With the great flexibility in planting dates, row widths, soil types, and it's exceptional yield potential, AG 4733S R2Y represents a tremendous value for producers.
