

Advanced Genetics Soybean Varieties

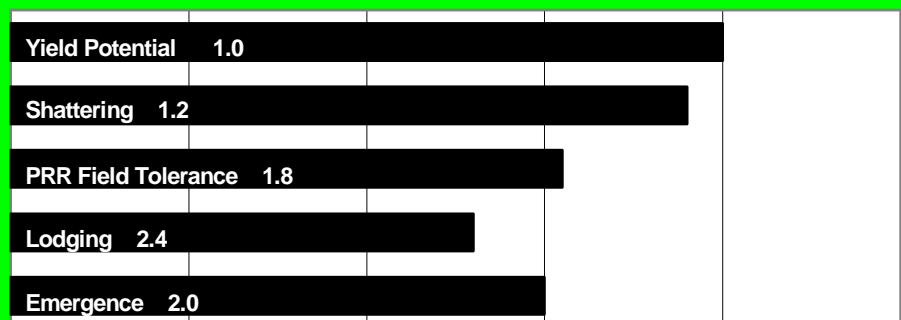

AG 5133N R2Y

Maturity:	5.1
Height:	Medium Tall
Plant Type:	Intermediate
Flower:	White
Pubescence:	Gray
Pod Color:	Tan
Hilum Color:	Buff
Seed Size:	3000/lb.
Recommended Row Width:	Wide or Narrow
Phytophthora Race Resistance:	None, good field Tol.
Cyst Nematode Resistance:	MR3, MR14 (PI 88.788)

AG 5133N R2Y is a high yielding early group V variety from Advanced Genetics with the RoundUp Ready 2 Yield gene. This is a medium tall variety with very good early vigor. AG 5133N R2Y offers very good soybean cyst nematode resistance and an intermediate type growth habit. This variety performs exceptionally well on the clay soils we encounter in southeast Kansas and handles stress very well. AG 5133N R2Y may be planted early or late with the expectation of excellent performance.
