

## ***SEED PIRACY IS A CRIME!***

Seeds containing the Roundup Ready® trait are protected under numerous United States patents, including Patent No. 5,352,605. In addition, the germplasm in conventional and Roundup Ready® soybean varieties may also be protected under one or more United States patents. Replanting saved seed of Roundup Ready® soybeans or patented conventional soybeans, or transferring patent-protected seed to others for planting is unauthorized and constitutes patent infringement.

**ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.** Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup agricultural herbicides. Roundup agricultural herbicides will kill plants that are not tolerant to glyphosate. Roundup® and Roundup Ready® are registered trademarks of Monsanto Technology LLC.
