

FACT SHEET

WB DEUCE CL + WHEAT

Deuce CL+ is a hard red winter variety developed by WestBred® and licensed to AGSECO. Deuce is a two gene Clearfield® variety moderately susceptible to stripe rust and moderately resistant to leaf rust. It has excellent overall leaf health. The Clearfield System™ provides producers with the maximum weed control options to control difficult weeds. Deuce is the first Clearfield variety developed for central and eastern Kansas. The variety Santa Fe is half its pedigree and yield performance of Deuce has been similar to Santa Fe.

Characteristics

Plant Height:	Medium
Maturity:	Medium Early
Coleoptile Length:	Medium Long
Seed Size:	Medium
Straw Strength:	Average
Test Weight:	Good
Winterhardiness:	Good
Milling & Baking:	Acceptable
Yield Potential:	Very Good
Grazing Potential:	Good

Disease & Insects

Barley Yellow Dwarf:	Mod. Susceptible
Hessian Fly:	Susceptible
Powdery Mildew:	Mod. Susceptible
Leaf Rust:	Mod. Resistant
Septoria Leaf Blotch:	Resistant
Spindle Streak Mosaic:	Resistant
Soil Borne Mosaic:	Resistant
Stripe Rust:	Mod. Susceptible
Tan Spot:	Intermediate
Wheat Streak Mosaic:	Mod. Susceptible

Pedigree: Santa Fe, Experimentals.

PVPA Status: Protected, must be sold only as a class of certified seed.
